Family Housing Assessment – Mr. Nhung Kheng

Mr. Nhung Kheng and his family are living in poverty and do not have sufficient financial resources to build a safe and suitable home of their own. The family has recently welcomed a newborn baby, making their need for safe and secure housing even more important.

Approximately one year ago, the family's previous home was destroyed by fire. Since then, they have been living in a temporary and inadequate house. Their current living conditions do not provide sufficient safety, comfort, or protection from the weather, particularly for their young children and newborn baby.

Due to the family's limited income, they are unable to save enough money to improve their current shelter or construct a proper new home.

The family has a 25 m × 80 m plot of land, which was provided to Mr. Nhung Kheng by the local commune. Although the family now has land on which to build, their financial difficulties prevent them from constructing a safe and permanent home without assistance.

Providing Mr. Nhung Kheng and his family with a new home would give them a safe, secure, and stable living environment, especially for their young children and newborn baby, and help the family rebuild their lives after losing their previous home to the fire.

They got very surprise and very happy to get new home.

They are very happy and have only wish.
